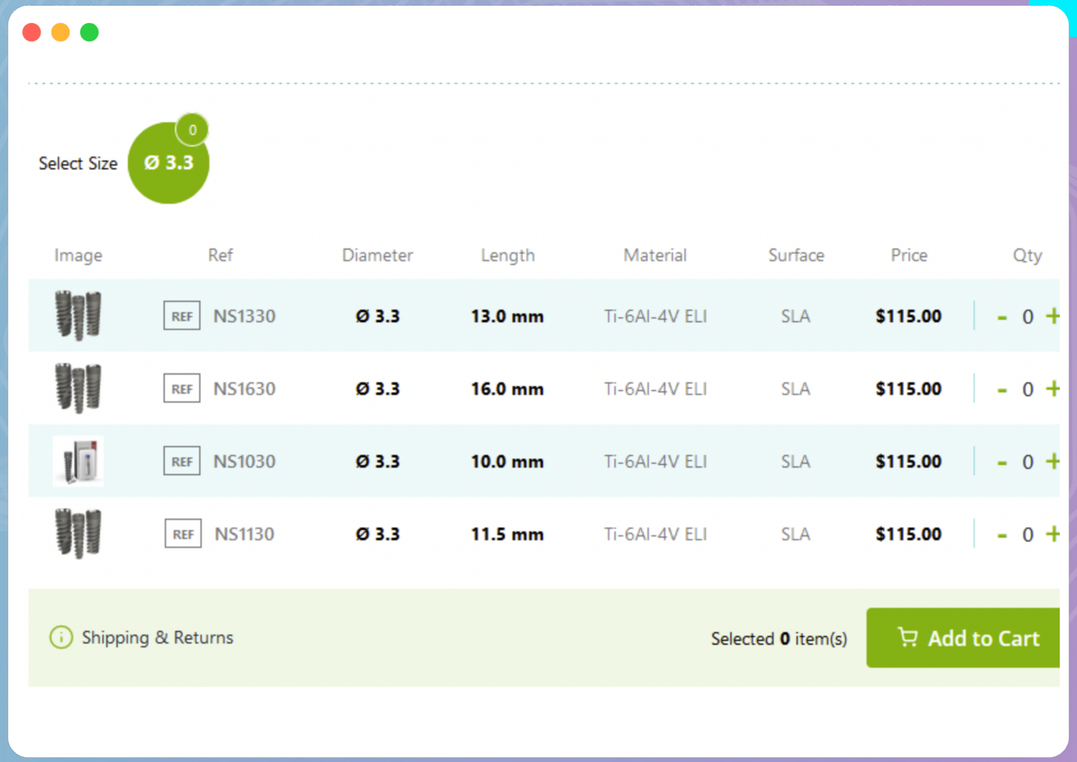
Plugin Customization: Woo commerce product bundle plugin

Webethics
More Than Your Thoughts

Customized Woocommerce variation table plugin to make it compatible with Woocommerce product bundle plugin. Only logged in/Registered users can see the pricing.



Webethics
More Than Your Thoughts

Customized to enhance the functionality of the Woo commerce product bundle plugin. In the product bundle, we only have an option to add a single package but we have customized it completely to add multiple options of variable products if there is a variable product in the package.

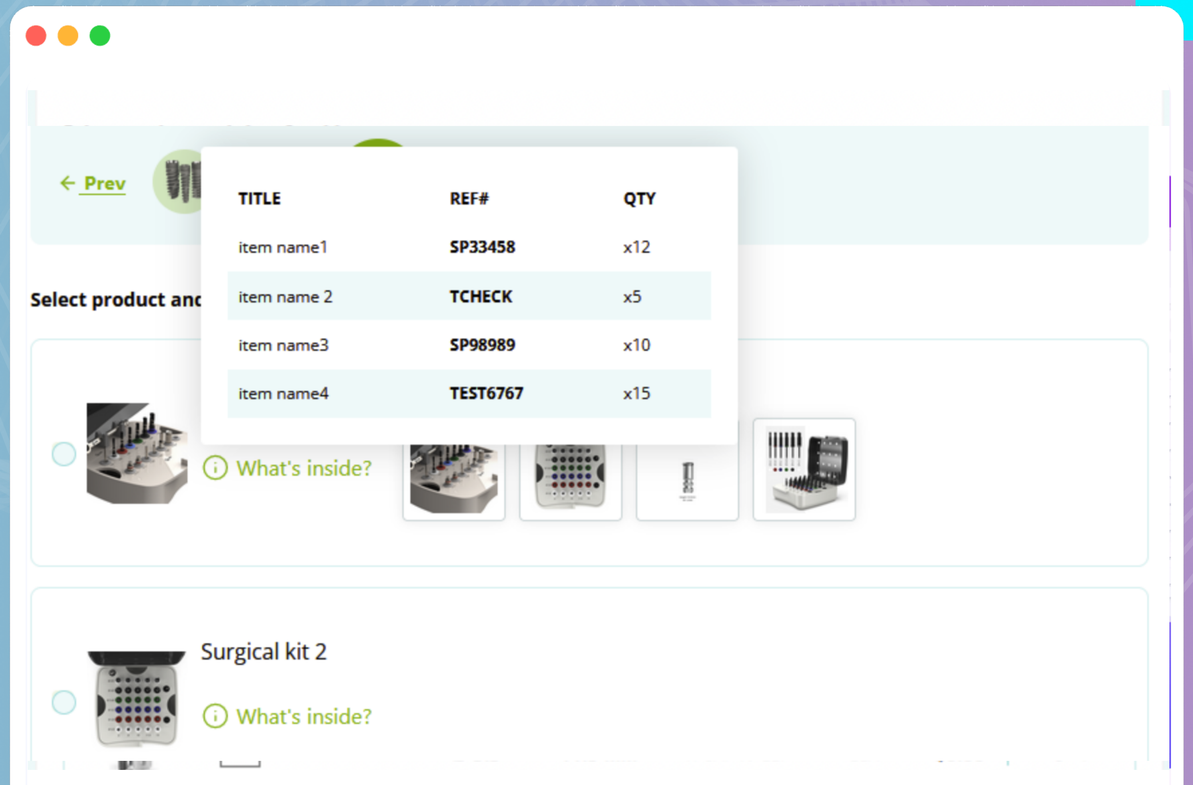
Admin Side **Customization**

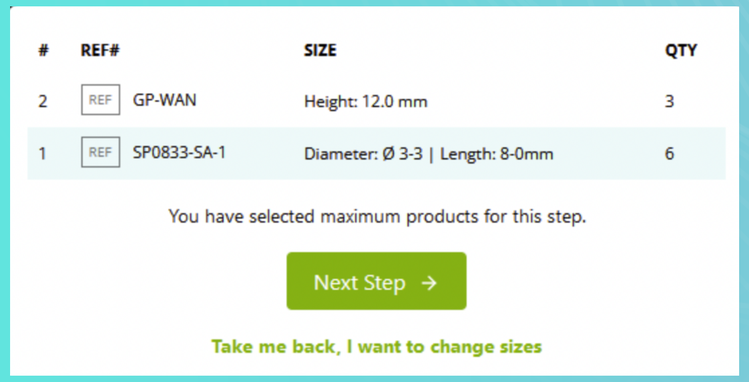
For this admin is customized so that admin can add info of each product they are offering along with its SKU and quantity. Further, this information is shown in mini-cart, checkout, and in order email as well as the information in the admin.

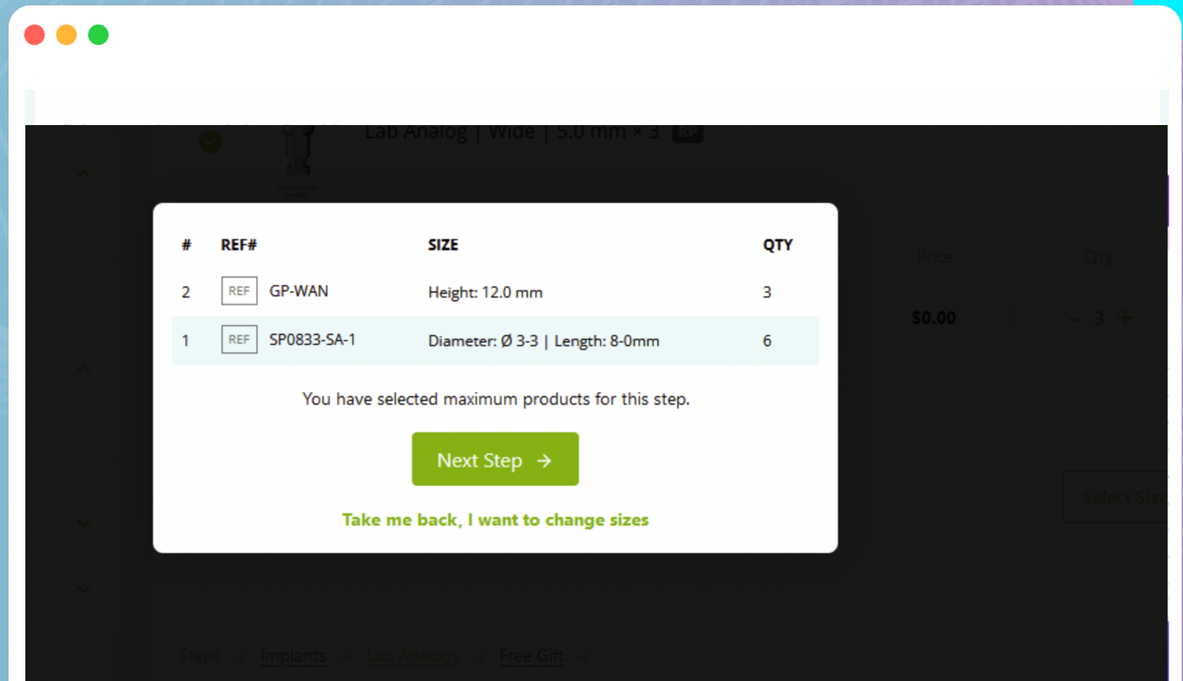


Multistep Package Feature

Webethics
More Than Your Thoughts

We have added multistep package feature having Previous/Next option added in the package so that users can easily navigate to change their customization before adding it to the cart. Also, once the maximum number of products under one step is completed, a pop-up will be shown for better user understanding.





Custom **Mini Cart**

Webethics
More Than Your Thoughts

Customized mini cart so that all the products added through Woocommerce product bundle will be shown instead of the just package name.
